

CE200-00 Introduction to the '12 IECC (7)

Course Code: CE200-00
Course: Introduction to the '12 IECC
Hours: 7 Hours
Designed For: City and County Officials, Building Officials, Building Inspectors
Fee: \$54 (Free Until 9/30/14)
State Recert #: TBD

Course Description: This course is provided through grant funding for the purpose of providing an overview to students and inspectors of the 2012 International Energy Conservation Code (IECC). Training will include instruction from the residential portions of the IECC as well as instruction from the commercial provisions. This course will introduce topics of importance to students and direct them to further in-depth study from other IECC courses.

Course Goal: Students and inspectors will have an understanding of the format, basic provisions, and primary goals of the 2012 International Energy Conservation Code. Students will also be shown the distinction between the residential and commercial requirements of the IECC.

REQUIRED STUDENT MATERIALS

Pen, Pencil, Paper and Highlighter
